EDUCATION

Belarusian State University of Informatics and Radioelectronics

BSc in Computer Science
Information Systems and
Technologies
Minsk, Belarus
2017-2021

SKILLS

- Java • Spring • Spring Boot
- Spring Security • JavaScript
- React • React-Redux
- Azure • Synapse Analytics
- Data Factory • SQS • S3
- PostgreSQL • MySQL
- DynamoDB • Python

LANGUAGES

- English – B2
- Russian - Advanced
- Turkmen - Native

WORK EXPERIENCE

IBA Group

Nov 2021 – Aug 2022, Minsk

Kyndryl 4 mo

Participated in life-cycle of different projects from testing to production

- Developed and maintained end-to-end operations of ETL data pipelines and worked with large data sets in Azure Synapse Analytics
- Optimized query executions by 25-30% using caching in Synapse Analytics
- Performed extensive debugging, data validation, error handling mechanism, transformation types within the large datasets using Azure Synapse Analytics

Cloud Decision Maker 4 mo

Brand new multi-cloud solution web studio for configuring business rules for real-time processes.

- Deployed APIs using AWS CloudFormation, API Gateway
- Worked with AWS SQS to store real-time events which are then processed using Lambda Functions
- Implementation of UI features in various components of the solution using React
- Development backend of Web studio using Python Flask

Education Portal (Student trainee) 3 mo

As a student trainee, I developed web application for IBA employees where you can access technical books, lectures, and other educational materials.

- Developed application server using Java, Spring
- Developed new user-facing features using React.js
- Configuration of Swagger for documenting REST APIs
- Provided support for Production and Implementation Issues
- Performed Unit testing of web Confidential modules using JUnit

Asman (Internship)

Jul 2021 – Nov 2021, Remote

Makalam 5 mo

Blog posting web site for Turkmen writers

- Involved in the software development life cycle requirement gathering, coding, testing, and implementation
- Developed new user-facing features using React.js
- Installation and configuration of MySQL on Ubuntu Linux, creating tables, view, indexes and other database objects;
- Developed microservices using Spring Framework and ran tests reviews and modifications of existing codes

PROJECTS

Digital Library

<https://github.com/atadurdyewserdar/electronic-library>

Technologies: Java, Spring Framework, React.js, Material UI, MySQL

Notes

<https://github.com/atadurdyewserdar/Notes>

Technologies: Python, Django RestAPI, React.js, SQLite
